Francis Bacon Graphic Novel

Written by CRISTINA PORTOLANO

Told for the first time in graphic novel form, the story of Francis Bacon's life is as complex, colorful, and highly charged as his paintings. Alternating between full-page illustrations and smaller, captioned works, Portolano imagines not only the known details of Bacon's biography, but also his inner life—the dreams, fears, and obsessions that were equally formidable underpinnings of his oeuvre. Woven together with historical facts and figures, this graphic novel reconstructs a life as only a cartoonist could—image led, thoughtfully composed, and deeply evocative of its subject matter.

The Projector and Elephant

Written by MARTIN VAUGHN-JAMES;
Introduction by JEET HEER;
Designed and Edited by SETH

Two surreal graphic novels about technology, corporatization, and alienation in the modern world by a cult-favorite comics innovator. In 1968, the British artist and writer Martin Vaughn-James emigrated to Canada. Over the next eight years, he proceeded to produce some of the most mesmerizing and inventive works in comics, light-years ahead of his contemporaries. Among them were *Elephant* and *The Projector*, linked graphic novels that guide the reader through landscapes built out of both the everyday and the nightmarish. Jam-packed superhighways, plummeting horses, vast urban wastelands, and interstellar oranges are just a small part of Vaughn-James's prophetic vision of society's turn away from the natural world to the artificial.

Written by JONATHAN CASE

It's been fifty years since a sun shift wiped out nearly all mammal life across the earth. 10-year-old Elvie and her caretaker, Flora, a biologist, are the only two humans who can survive during daylight because Flora made an incredible discovery—a way to make an antidote to sun sickness using the scales from monarch butterfly wings.

Free to travel during the day, Elvie and Flora follow monarchs as they migrate across the former Western United States, constantly making new medicine for themselves while trying to find a way to make a vaccine they can share with everyone.

The World of Avatar

A Visual Exploration

Written by JOSHUA IZZO

Celebrate the first decade of James Cameron's *Avatar* and the beginnings of an epic cinematic journey.

Delve into the majestic world of Pandora and discover the incredible wealth of creativity that led this story to become the highest-grossing film of all time and the winner of three Academy Awards.

The *World of Avatar* celebrates, explores, and explains the spectacular world of Pandora—its extraordinary geology, flora and fauna, and the customs and beliefs of its people, the mysterious Na'vi. The book uniquely covers key content from all aspects of the burgeoning franchise. It combines original movie stills and artwork with stunning imagery from Cirque du Soleil's *Avatar*-inspired show *Toruk: The First Flight*; and Disney World's Pandora—The *World of Avatar*.

With a foreword by *Avatar* star Zoe Saldana (Neytiri), and an introduction by producer Jon Landau, *The World of Avatar* concludes with a “sneak peek” of a new *Avatar* era, fueling excitement for the long-awaited release of *Avatar 2* in December 2022.

INTERIOR SPREADS FROM **The World of Avatar**

THE HALLELUJAH MOUNTAINS

The majestic, mysterious *Ayam Aulizing* hover high among the clouds

The magnificent, spectacular Hallelujah Mountains—just one of the many different floating mountain ranges on Pandora—are composed of billions of tons of rock that float high in the air, like clouds. The mountains are heavily forested and often have majestic waterfalls cascading down their sheer sides. These massive rock formations are connected by great, cable-like bridges of vegetation.

High winds and storms sometimes cause the mountains to collide in midair. These crushing impacts have led the Na'vi to call these marvels *Ayam Aulizing* or “Thundering Rocks.” The mountains seem to defy gravity, but the scientific explanation for them derives from Pandora’s liquid iron core and its proximity to the planet Polypheum. The combination of Pandora’s denser atmosphere, the magnetic pull of Polypheum, and large rocks rich in superconducting unobtainium ore combines to create these floating wonders.

Natural attachment

Smaller floating rock clusters form alongside their vast mountains. Boulders are tethered to each other only by the vines that grow between them.

Sacred sites in the sky

The mountains are the rising ground for *Imonop*, a dangerous rite of passage in which a young Na'vi warrior must select (and be selected by) and then bond with one of the mountain bannishes who roost there.

FLOATING MOUNTAINS

Floating mountains and stone arches are two of Pandora’s most distinctive landforms. Both are markers for the presence of the invaluable mineral unobtainium, which, owing to the high concentration of magnetic polarization, causes considerable disruption to human technology. The mountains serve as a highly visible warning to pilots of the nexus of intense magnetic fields. The first human explorers to see the floating mountains were awestruck (as are all humans lucky enough to have seen the phenomenon). The sight of billions of tons of rock floating as weightlessly as clouds seemed utterly inexplicable. When these explorers returned to base, their comrades thought that the holographic images they brought back were an elaborate practical joke.

Hazardous flying conditions

Magnetic fields that suspend the mountains disrupt radar. Pilots have to rely on their eyesight to navigate through clouds and avoid collisions.

Data file

NA'VI NAME: *Tonk*
HABITAT: Mountain aeries
ANATOMY: Huge leathery wings; immensely strong, carbon fiber skeleton; massive talons; twin tail aids agility in flight; sharp, bony crest; four eyes.
COLORATION: Scarlet-yellow and black-striped body; head, and wings, dark blue crest.
WINGSPAN: Up to 102 ft (31 m)

A terrifying sight

The tonk's open throat reveals its mouth to open extremely wide, exposing rows of razor-sharp, bonecut-like teeth.

GREAT LEONOPTERYX

Apex predator of the Pandoran skies

Tonk, the Na'vi name for this creature, translates as “lost shadow,” reflecting the belief that if this magnificent flying carnivore casts its shadow over you, that shadow will be the last you ever see. The tonk's preferred prey are mountain bannishes. However, this solo hunter has also been known to attack aircraft piloted by humans, probably believing that these strange vehicles pose a threat to its supremacy in the air.

The Na'vi regard the tonk as one of Eywa's greatest creations. The animal is honored in the Hometree of the Omelasay clan by a totem bull around a tonk skull. Ceremonial dances and songs endow the tonk with mythic power and significance and reflect the Na'vi's fear and respect for the species. The few humans lucky enough to have survived seeing a tonk on the wing can only marvel at the creature's grace and command of the Pandoran sky.

Majestic aviator

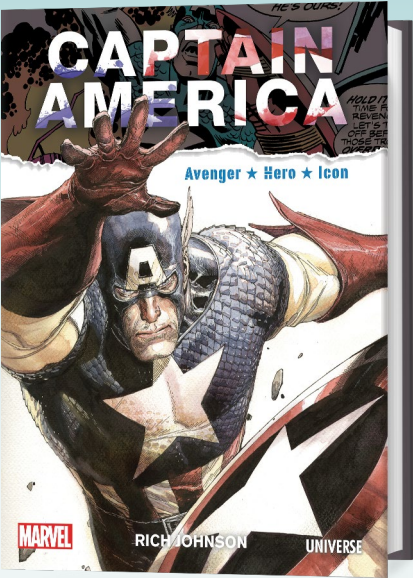

An ancient Na'vi story relates how the past tonk once helped to save the Tree of Souls from a vicious invasion. Before their riding on a tonk—a feat that had never been accomplished before—was the only way to reach the desolate, a ground of angry Na'vi warriors for the tonk in its mountain home.

CREATURE OF LEGEND

In rare instances, one of the Na'vi manages to link with a tonk. This has only happened during tumultuous eras. The Na'vi who accomplishes this is given the title *Tonk-Mokto* or “Rider of the Last Shadow.” Only someone with a pure soul can ride a tonk; some brave but foolish Na'vi have tried to link with one and perished. It is said that whenever the Na'vi face seemingly insurmountable odds, a *Tonk-Mokto* will appear. Neytiri tells Jake that her grandfather's grandfather was the last. As *Tonk-Mokto* he united the clans “in a time of great sorrow.”

Attack leader

Flying on their bannishes, the Na'vi warriors join Jake, the new *Tonk-Mokto*, as he leads them into battle against the human RDA invaders.
