Direct Market Ordering Catalog for Products Shipping in October and Beyond

Hello comic retailers and fans!

Welcome to PRH Panels, the Penguin Random House catalog for the Direct Market, highlighting the incredible graphic novels, manga, games, and more that debut every month. We can't wait for you to find the next story to inspire and entertain you, and the latest games and gifts to bring you together.

In our Comics section, we've got ***Operation Sunshine #1***, a new series from the New York Times-bestselling hosts of the hit *The Last Podcast on the Left* and Black Hammer's David Rubin. This humorous horror is *Near Dark* meets *Ocean's Eleven*, with a ragtag group of alienated vampires stealing a magical device from the ancient vampires to become human once more. This heist leads to uncovering secret plots, underground bases, and all manner of trouble along the way! Then we have ***Earthdivers #11***, the newest arc in the history altering, sci-fi slasher series that's the perfect jumping on point for new readers! The team of time-traveling Indigenous survivors have completed their mission of killing Columbus, but the future has not changed in the way they expected. Now it's up to Seminole two-spirit Emily to infiltrate the Founding Fathers and alter history in 1776. No need to cut throats this time...right?

Hope you're hungry, because our Graphic Novel section is taking us to a delightful baking competition with ***The Great British Bump-Off!*** Giant Days' John Allison and Max Sarin present an Agatha Christie-style murder mystery set in the world of English competitive baking, where murder is truly a dish best served cold! Shauna will have to charm the nation with her baking skills and solve the murder before she's next!

We're sticking to London in our Kids & YA section, but it's the gothic London of Dr. Jekyll and Mr. Hyde in ***The Glass Scientists: Volume One***. It's a rough time for mad scientists after the whole ordeal with *Frankenstein*, but thankfully a young man named Dr. Henry Jekyll has created a haven for these out-of-the-box thinkers to defy the laws of nature in peace at the Society for Arcane Sciences! This popular webcomic is in print at last, perfect for fans of *Lore Olympus* and *The Night Circus*!

In our Manga, Manhwa, & Manhua section, we've got the highly anticipated ***Trigun Deluxe Edition***, featuring nearly 700 pages of Yasuhiro's Nightow's signature creation, collected for the first time in its original oversized format! Vash the Stampede is a pistol-packing pacifist with a weapon capable of punching holes in a planet...and a massive bounty on his head that everyone on planet Gunsmoke wants to claim! Don't miss out on this hugely popular series!

Finally, our Games & Gift section features an illustrated guide into Dungeons & Dragons' beloved fifth edition with ***Lore & Legends: A Visual Celebration of the Fifth Edition of the World's Greatest Roleplaying Game***. Discover the incredible ongoing story of Dungeons & Dragons fifth edition from the perspective of the designers, artists, and players who bring it to life. This is a must-have for all D&D fans!

All this and much, much more can be found in this month's PRH Panels. Don't hesitate to explore this catalog and find the perfect new book! As always, retailers who have any questions about the ordering process or would like to open an account with PRH, are encouraged to email us at comicmarketUS@penguinrandomhouse.com.

Letterer STEVE WANDS

Join or die! *New York Times* bestselling author Stephen Graham Jones and artist Davide Gianfelice are back in action for the next chapter of their heart-pounding historical sci-fi slasher EARTH DIVERS! A team of time traveling Indigenous survivors had one goal: save the world from an American apocalypse by sending one of their own on a suicide trip to kill Christopher Columbus and course-correct world history.

Mission accomplished? Maybe not. Blood is still soaking into the sands of San Salvador as Tad's friends suffer the consequences of his actions—and their own slippery moral rationalizations—620 years in the future. Faced with a choice to watch the world crumble or double down on their cause, the path is clear for Seminole two-spirit Emily: it's personal now, and there's no better time and place to take another stab at America than Philadelphia, 1776.

But where violence just failed them, she has a new plan: pass as a man, infiltrate the Founding Fathers, and use only wit and words to carve out a better future in the Declaration of Independence. No need to cut throats this time...right?"

Beneath the Trees Where Nobody Sees #1 Cover A (Horvath)

Written, Illustrated, and Cover Design or Artwork by PATRICK HORVATH

Don't. Murder. The locals.

This is small-town serial killer, upstanding citizen, and adorable brown bear Samantha Strong's cardinal rule. When you've worked as hard as Sam to build a cozy life and a thriving business in a community surrounded by friendly fellow animal folk, the last thing you want is to disturb the peace.

So you can imagine her indignation when one of Woodbrook's own meets a grisly, mysterious demise—and you wouldn't blame her for doing anything it takes to hunt down her rival. It's Dexter meets Richard Scarry's Busy Town!

All of the Marvels

A Journey to the Ends of the Biggest Story Ever Told

Written by DOUGLAS WOLK

The first-ever full reckoning with Marvel Comics' interconnected, half-million-page story, a revelatory guide to the "epic of epics"—and to the past sixty years of American culture—from a beloved authority on the subject who read all 27,000+ Marvel superhero comics and lived to tell the tale.

As a work of cultural exegesis, this is sneakily significant, even a landmark; it's also ludicrously fun. Wolk sees fascinating patterns—the rise and fall of particular cultural aspirations, and of the storytelling modes that conveyed them. He observes the Marvel story's progressive visions and its painful stereotypes, its patches of woeful hackwork and stretches of luminous creativity, and the way it all feeds into a potent cosmology that echoes our deepest hopes and fears.

Lore & Legends

A Visual Celebration of the Fifth Edition of the World's Greatest Roleplaying Game (Dungeons & Dragons)

Written by MICHAEL WITWER, KYLE NEWMAN, JON PETERSON, SAM WITWER, and OFFICIAL DUNGEONS & DRAGONS LICENSED

When the reimaged fifth edition of Dungeons & Dragons debuted in the summer of 2014, tabletop roleplaying games were on the brink of obsolescence. But within a few short years, D&D found greater success than it had ever enjoyed before, even surpassing its 1980s golden age. How did an analog game nearly a half century old become a star in a digital world? For the first time, Lore & Legends reveals the incredible ongoing story of Dungeons & Dragons fifth edition from the perspective of the designers, artists, and players who bring it to life. This comprehensive visual guide illuminates contemporary D&D—its development, evolution, cultural relevance, and popularity—through exclusive interviews and more than 900 pieces of artwork, photography, and advertising curated and analyzed by the authors of the bestselling and Hugo Award-nominated Dungeons & Dragons Art & Arcana.

INTERIOR SPREADS FROM **Lore & Legends**

A BRAVE NEW LOOK

Led by interior art directors Kate Irwin and David Gidon, and cover art directors Shamus Nanton and Melissa Knapik, the revamped philosophy of fifth edition applied not just to the mechanics and story, but to the overall visual aesthetics of the brand. With a strong focus on simplicity, accessibility, and inclusion, the art became a manifestation of the mandate, with radically updated guidelines for how to “visualize” D&D. And, more so than any previous edition, the imagery flows from page to page, chapter to chapter, and book to book, a testament to this unified tone and direction.

Contemporary D&D art embraces all that came before with a cohesive language, even finding room for neglected creatures from the game’s past, albeit with an artistic facelift. As Chris Perkins elaborates: “Monsters were pulled from every previous edition, even some oddball ones that capture the more polarizing aspects of the game, including in some of humor and whimsy. . . . However, our main goal was to make sure that the illustrations “sold” the monsters enough that *Dungeons Masters* would actually use them in their games.” In contrast to the plethora of illustrative styles versus most with prior editions, the monsters were brought to life with a consistent visual vernacular, helping to cement their status in a larger pantheon and legacy.

The *Forgotten Realms* had always been full of diverse, multi-ethnic regions, but the book of *Barbarians* in fifth edition storytelling imbues it with a grounded and lived-in reality, making it more relatable than ever. Once a player steps into this world, it feels like anything and everything is possible for them.

And while everything in D&D is possible, fifth edition conveys the subtle message that not everything is probable. Unlike previous editions of the recent past, fifth edition returns a sense of gravity into the game, reintroducing the characters’ feet to the ground. And, true to form, every panel of art illuminates this change of philosophy. Instead of the impossibly broad positions of D&D’s previous iteration, armor now looks as if real people could actually wear it. Weapons are once again proportionate to the wielder, designed and sized so they could believably be held by mortals. And wizards look as though they are back to hitting the books instead of hitting the weights. This new iteration recalls the earliest visual iterations of the game by returning a sense of mortality, or at least humanity, to the game.

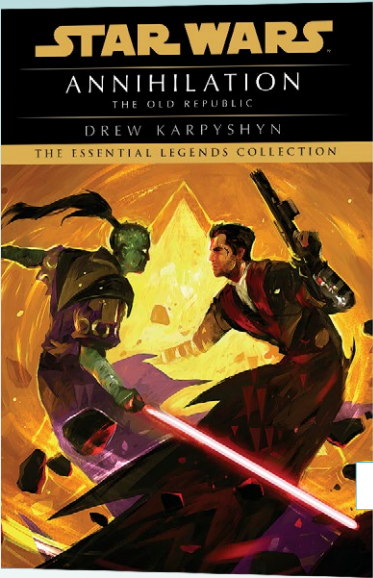

A barbarian, very grounded and realistic, rooted off by fantasy looks.

A mega’s gallery of monsters, heavily redesigned from prior editions to make more *Dungeons Masters* use. (Shown here is the *Beholder* from page 40) are the cartoon (skeletal, cool, monstrous, simple, strong, and the comic comic) in the center.

War of the Scaleborn (World of Warcraft: Dragonflight)

Written by COURTNEY ALAMEDA

Uncover the full story behind the war of the dragons in this official prequel novel to World of Warcraft: Dragonflight.

Does the thinking of some of our favorite authors also speak to a place beyond floods of automatic links and references and rectangular photographic portals? To a broader and more applied artistic domain like the imaginative sensibility of illustration, where entire worlds arise from the simple and deliberate placement of lines on paper?
