WELCOME TO *FORT PSYCHO*—THE EXTREME ACTION COMIC THAT ONLY STOPS TO RELOAD! From *New York Times* bestselling writer Matt Kindt (*BRZRKR*, *Mind MGMT*) and adrenaline-racing artist Brian Hurtt (*The Sixth Gun*, *Manor Black*), enter the 40-page first chapter of a powerful new maxi-series stocked with trained killers, secret betrayals, and the long-buried truth about the mission that led them to an off-the-grid island prison with no hope of escape . . .

Ten years ago, the nation of Singapore sank into the Pacific Ocean. The underground terrorist network known as the Seven Seals took credit for the largest act of terror in human history. In the aftermath, the United Nations created a strike team of highly trained covert operatives with one mission: locate, identify, and eliminate the Seven Seals' secretive leader. The team's clandestine affairs were to always remain in the shadows—until their final, explosive confrontation resulted in a large-scale tragedy too bloody to cover up and too tragic to ignore.

Disgraced and disavowed by the governments that trained them, the world's most dangerous secret agents have been convicted for their crimes and sentenced to serve time side by side in the one place capable of holding them: their old island headquarters, Fort Cyclone—now known in the media by the derogatory nickname "Fort Psycho."

And that's where the official story is about to go terribly, terribly wrong . . .

FORT PSYCHO

SNEAK PREVIEW

FLUX HOUSE

ONE YEAR LATER.

While some argue that SAWS were heroes, the truth is that SAWS were hired mercenaries.

Cold-blooded killers. Psychopaths.

State-sanctioned hitmen.

ETA five minutes. Remember your protocols.

Many argued that the cure was just as deadly as the disease.

Check!

...is too good for them.

Secure!

While the extent of their war crimes may never be known...

...the world can rest easy in the knowledge that their Faces will never be seen again.

Stay frosty. Eyes wide!

Cargo away. Open the door.

BEEP

CLINK-CHUNK

Walk slowly. Do not turn around!

Hit the locks!

Entertainment. Golf. Pools. Fishing. Horses. Booze.

Last thing they want is a group of highly trained mercenaries having a grudge.

It's a long way from Gitmo or the Ice Box.

If I'd known sooner, I might have surrendered.

But a cage is a cage. Most of us are happy.

"Most?"

A gilded cage is still a cage. We can't ever leave the island.

Drones monitor everything. They're silent. Small. Everywhere. Forget about escaping. If the drone don't see you...

"The DNA packets they injected you with before arrival? They bind to your DNA. Genetic poison."

If you don't take the pills they give us to counteract it? You'll die.

Sounds like [redacted].

You're welcome to test the theory. A few of us have.

And...?

Take the pill.

Thought everyone had been caught or killed by now.

You lasted longer than any of us out in the wild. Impressive.

Been a while since we've had a new guest. Your house isn't quite ready.

Everything you need is here. If you want help interpreting the Swedish furniture instructions, let me know.

Otherwise, I'll let you go. Hot water is on. Relax. Clean up.

MIND MGMT'S NEWEST AGENTS HAVE A KILLER TO CATCH! From superstar creator and cartoonist Matt Kindt's (*BRZRKR*, *Fort Psycho*), the landmark series that *IGN* calls "one hell of a ride" races further a into labyrinthine maze of psychic warfare, sudden violence, and long-buried deceptions where nothing—not even your own past—is quite what it seems . . .

When Detectives Delphi and Swon find themselves in the snowy peaks of France investigating the seemingly accidental death of an Immortal (who absolutely had no business dying), Swon's paranoia reaches new heights, and he lashes out at his fellow agents. He's unsure of who to trust as memories of his Mind Management training come flooding back. Delphi struggles with how to keep him in check; she doesn't want to report Swon's erratic behavior—she should but she can't, as she fears she's making the wrong choice . . . for love?

SINS OF THE PAST DON'T STAY BURIED . . . THEY ALWAYS FIND A WAY OF RISING FROM THE GRAVE! From Eisner Award–nominated writer and master storyteller Rodney Barnes (*Batman: Full Moon, Killadelphia*) and phenomenal artist Elia Bonetti (*Death of Wolverine: The Logan Legacy*), enter a century-spanning tale of suspense and sorrow as true crime meets shocking terror inside an infamous asylum with a tortured past.

Founded at the turn of the 20th century outside of Annapolis, Maryland, the Crownsville Hospital was a notoriously segregated, all-Black psychiatric institute. After decades of overcrowding and neglect—alongside darker, more persistent rumors of patient abuse and illegal medical experiments—it was finally closed. Today, it stands condemned—a crumbling testament to a legacy of all-too-real terror inflicted on a marginalized and vulnerable community. But even as a ruin of its former self, Crownsville still casts a long shadow . . . When an unexplained death inside the abandoned hospital is ruled a suicide, Annapolis police detective Mike Simms and journalist Paul Blair are compelled to dig deeper, only to discover the reality of the horrors that once took place there . . . and the powerful connection they share to the anguished spirits of the dead that are still locked within its walls.

The last year of school before graduation has begun . . . a time when the world seems the same but when everything will change.

For Ben, who is determined to enjoy the end of summer with his girlfriend, Clara, the mood gradually darkens as she begins to withdraw in a similar manner as his best friend, Andreas, had, and without explanation.

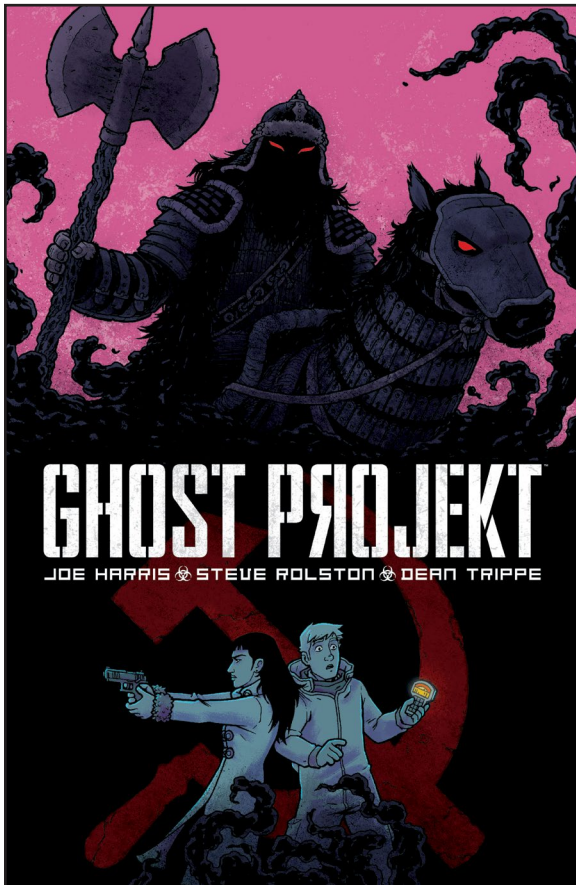

While tensions grow between Ben and Clara through the school year, Andreas struggles with his own demons, and suddenly final exams are upon them along with the inevitable questions from friends and family alike: What are you doing after school? Where will you enroll? Will you move out? What's next? Maybe the answer for Ben and his classmates is to simply slow down and take a deep breath . . .

Outline is creator Michèle Fischels's impressive graphic novel debut, in which she demonstrates a deep relatability for that special phase in which we cautiously leave childhood behind and look to the future with uncertainty and anticipation.
